

Dear Mr. Ahmed

I would like to say thank you to you and your team for the help in providing a home for Simphiwe and I.

We are settling in well and know it will take some time to finish furnishing, decorating, rearranging the basement etc. I'm don't mind taking my time to make this the perfect home for Simphiwe and me.

Since moving into our Habitat home, we both have less stress in our environment compared to the shelter. I am thankful for the stability we now have. Simphiwe is doing very well at his new school and has settled into the before/after school program which was not the case last year.

I was able to buy a spinning bike and start my weight loss journey. I was not allowed to bring in equipment or furniture at the shelter. I like that I can choose things for my house and family.

I'm particularly enjoying the short commute to work and to drop off and pick up Simphiwe. I am looking forward to staying here for a long time.

Kind regards and happy holidays,

Lozitha Nzula
